Statment regarding the POP regulation (EG No: 2019/1021)

Dear Madam or Sir,

We thank you for your inquiry about compliance with the POP regulation.

Regulation EG 850/2004 of the European Parliament and of the Council of April 28, 2004, Annex I, amended by Regulation EU 2015/2030 of the European Parliament and of the Council of November 13, 2015 on persistent organic pollutants (POP) is an agreement Binding and restricting measures for certain long-lived organic pollutants that are binding under international law:

The manufacture, placing on the market and use of the substances listed in Annex I, Regulation EG 850/2004 / EU 2015/2030 as such, in preparations or as components of articles is prohibited.

According to the information currently available to us, we confirm to the best of our knowledge and belief that the prohibited substances listed in the above guidelines are not used in the products we manufacture.

We regret that due to the number of inquiries we've received and the complexity of each questionnaire, we are unable to reply to each individual request. We appreciate your understanding in this matter and trust that this letter will be sufficient in meeting your concerns.

Yours sincerely,
ept GmbH

i.A. S. Scholl
